

It's so much fun to scribble & wibble.

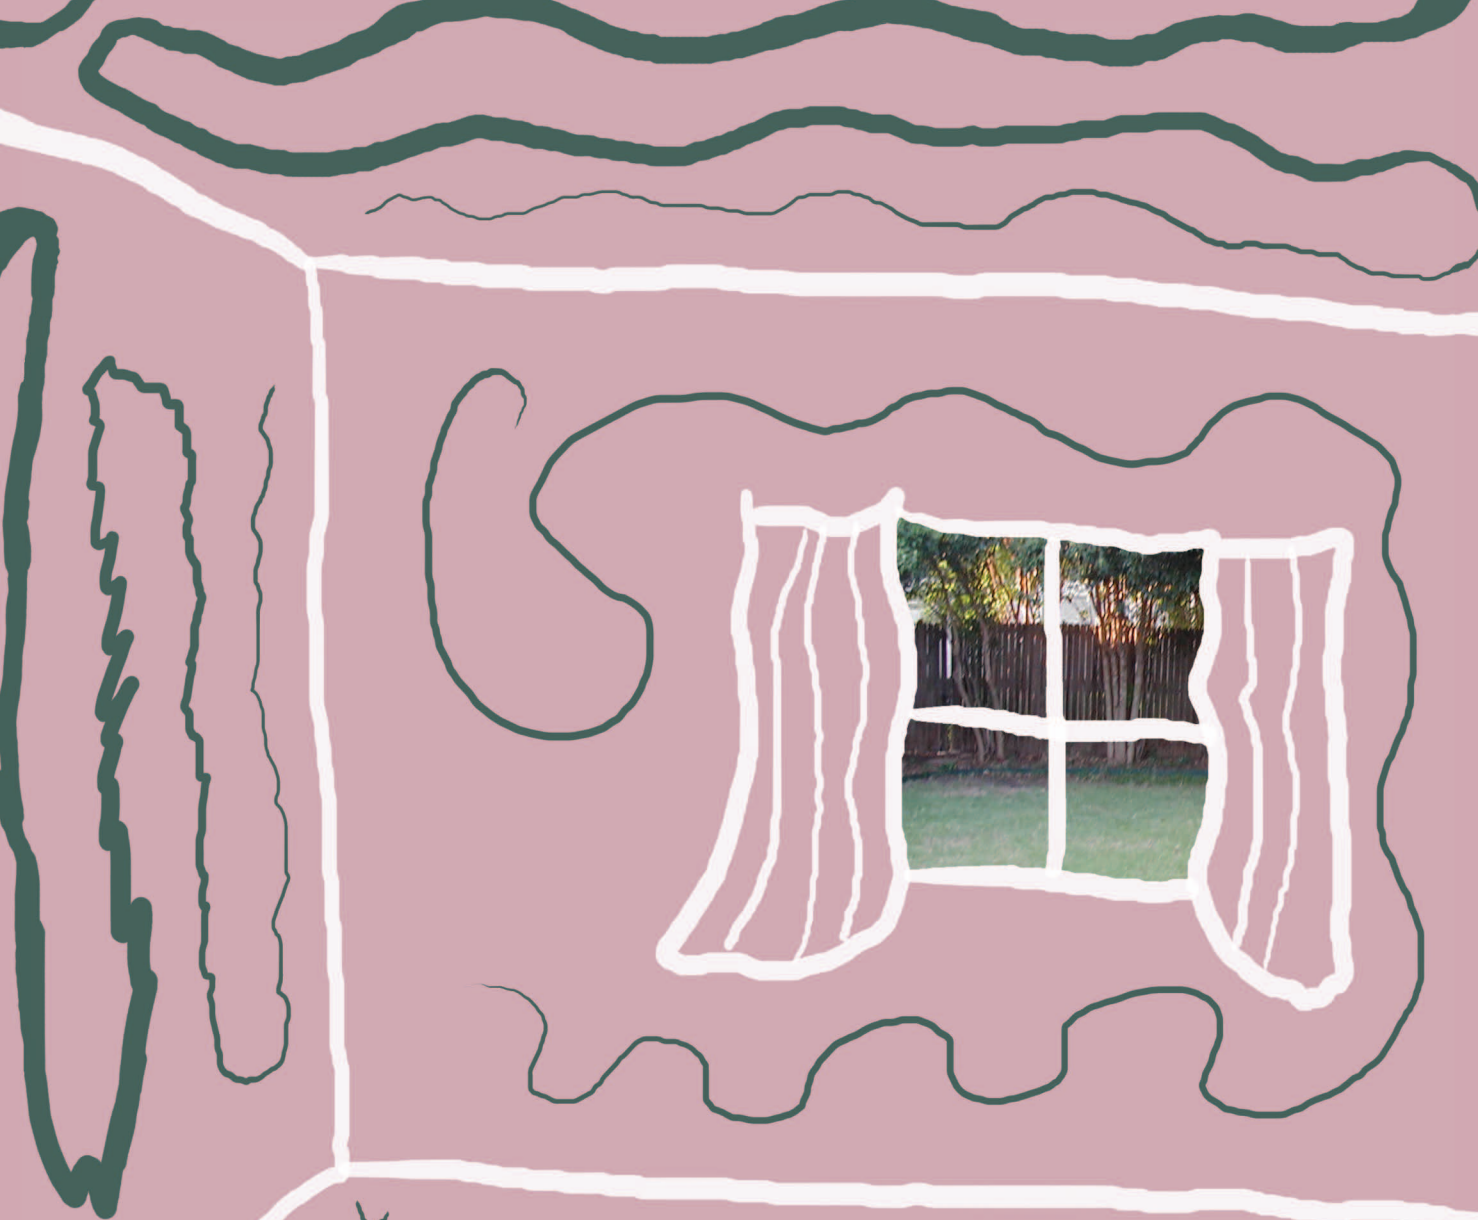

You can start with wiggles  
just like these:

(And you can scribble however many  
you please.)

You can scribble a wibble scribbling a wibble  
who's scribbling a wibble for the wibble  
who's scribbling it.

You can even scribble wibbles  
on the ceilings, floors, and walls.  
But if you choose to do so,  
there's something I should  
mention...

Some people get offended  
by these harmless little wibbles.

Wibbles are weird.  
I  
**HATE**  
weird.

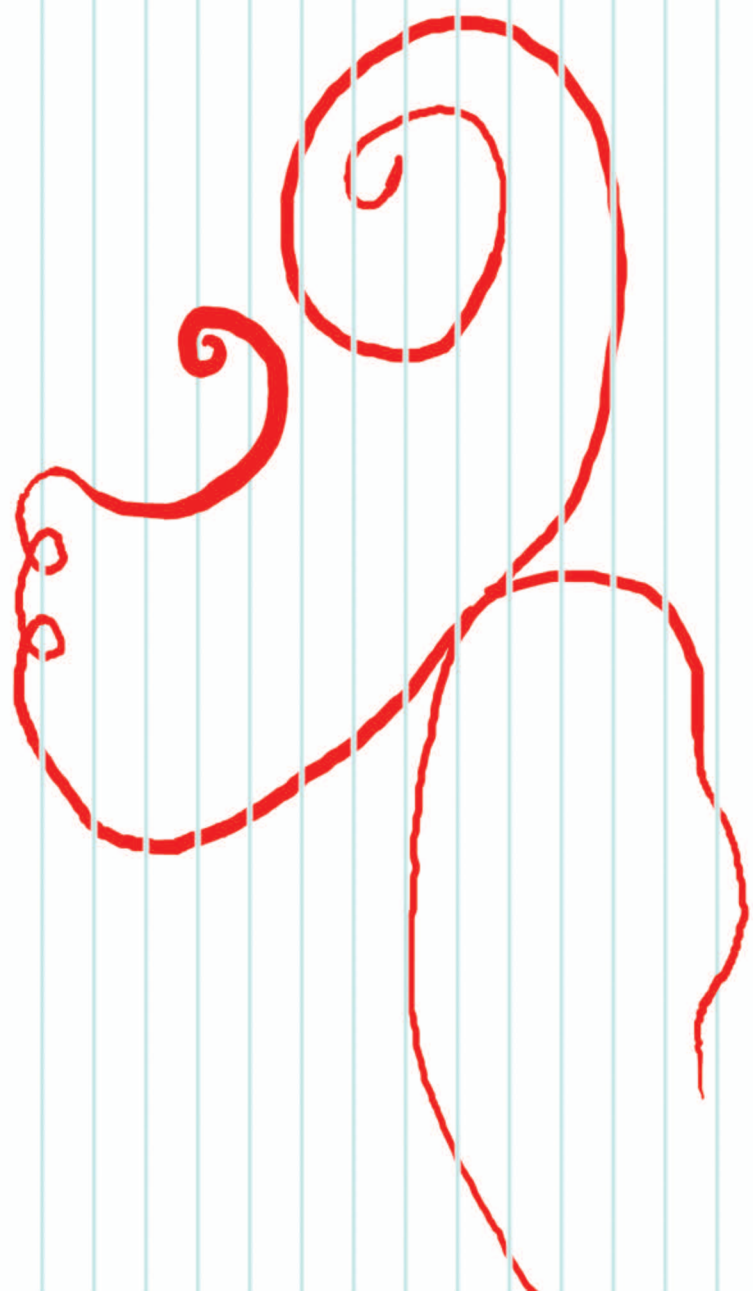

Wibble?  
Wi-BULL!

Hands weren't  
made for  
Scribblin'

And if they catch you scribbling them,  
they'll throw you in detention!

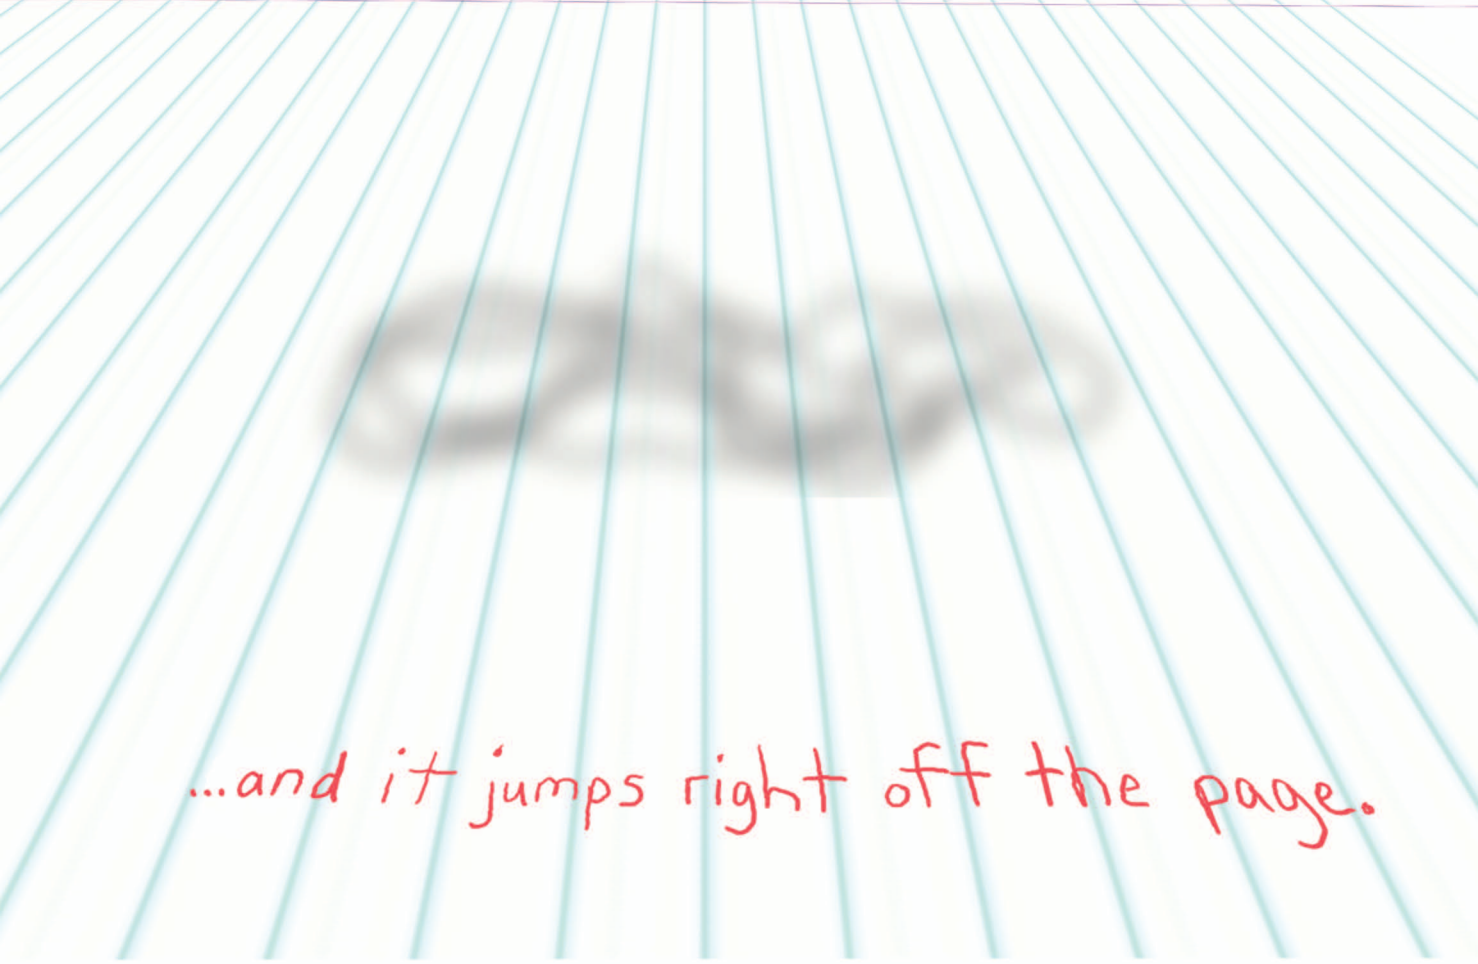

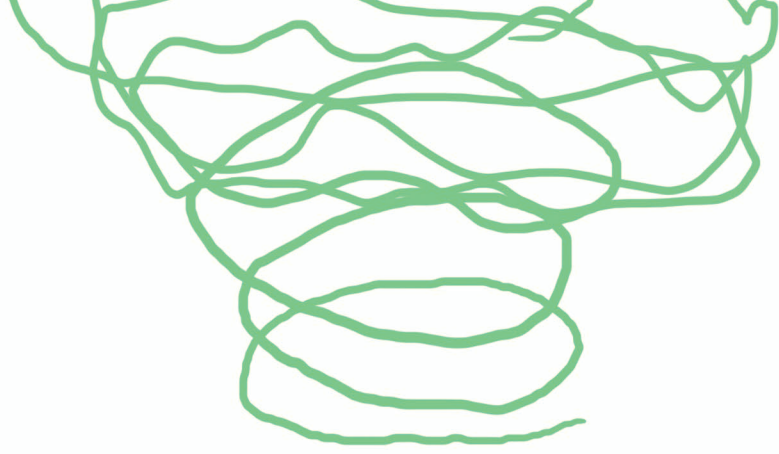

So it's best to scribble in private,  
and keep your wibbles in a cage.

Until you scribble a wibble

that's just too wild...

...and it jumps right off the page.

And once it's free,  
nothing can hold  
it back.

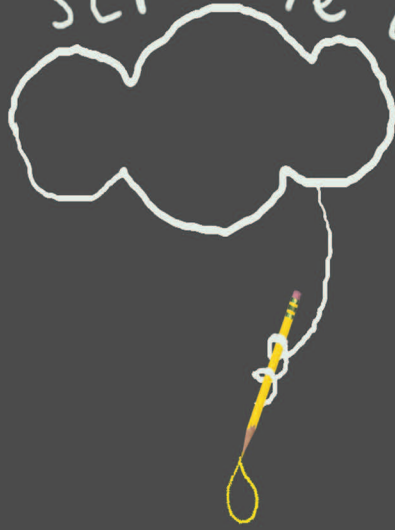

Not even you!

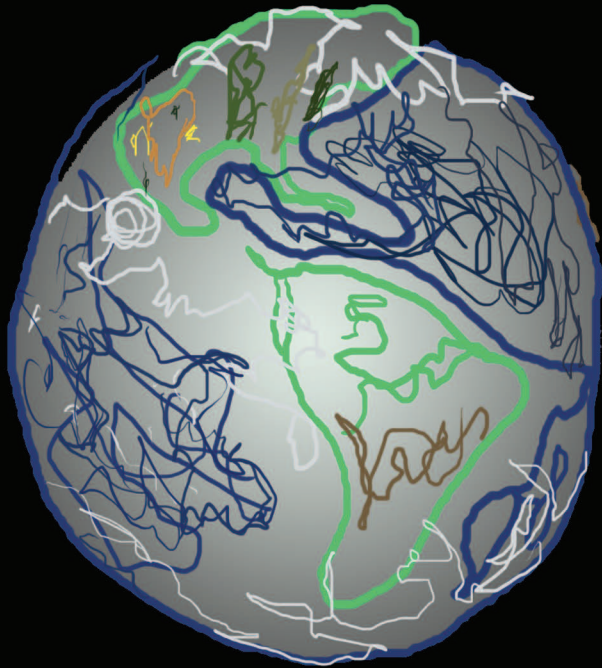

It'll scribble wiggles  
of its own.

And they'll scribble wibbles, too.

The world  
will be full of vibrant little wibbles,

and vibrant big wibbles as well.

"It's a scribbly, wibbly life,"  
we'll all exclaim together,

"as far as I can tell!"
